

Triangle Risk Advisors Included in IIABA's 2020 Best Practices Study

Louisburg, NC – Triangle Risk Advisors has retained its Best Practices status, once again becoming a part of an elite group of independent insurance agencies around the United States. This status comes by participating in the Independent Insurance Agents & Brokers of America (IIABA or the Big “I”) Best Practices Study group. The annual survey and study of leading independent insurance agencies documents the business practices of the “best” agencies and urges others to adopt similar practices.

The selected Best Practices agencies retain their status during the three-year cycle by submitting extensive financial and operational data for review each year. This is the second year of the current three-year study cycle, where over 1,000 independent agencies throughout the U.S. were nominated to take part in the annual study in 2019, but only 262 agencies qualified for the honor. To be chosen, the agency had to be among the 35-45 top-performing agencies in one of six revenue categories.

“It is abundantly clear that this prestigious status would not have been awarded to us without our loyal customers. They are who we work for every day and it is their trust in us that pushes the agency to be better every single day,” says J.M. Dickens, Triangle Risk Advisor’s co-founder and Agency Principal.

“Triangle’s primary initiative is to continuously exceed our customers’ expectations. I am extremely proud that an outcome of that pursuit is to be recognized as a Big “I” Best Practices Agency for the second year in a row. It is the efforts of our entire team that have led us to this award,” mentions Jacob Alphin, the other co-founder and Agency Principal of Triangle Risk Advisors.

Now with four convenient locations, Triangle Risk Advisors is happy to assist you with customizing a home, auto, life, farm, or business insurance plan to protect your family, business, and community. Triangle’s independent agencies apply a risk management approach by identifying potential exposures and offering sound solutions.
